**FIRST SUPPLEMENTAL PLAINTIFF'S OBJECTIONS TO FINDINGS,  
CONCLUSIONS AND RECOMMENDATION OF MAGISTRATE JUDGE**

NOW COMES Barbara Jeanne Altemeier, Plaintiff, in the above-entitled case to file this First Supplemental Plaintiff's Objections to Findings, Conclusions and Recommendation of Magistrate Judge and would show this Court the following, to wit:

**I. PAGE NUMBERING: GENERAL: OBJECTION:**

**Objection 11:** Most of the references in the Findings, Conclusions and Recommendation of Honorable Magistrate Judge to Plaintiff's First Amended Complaint are increased one page over the page numbering of the document, since Honorable Magistrate is apparently referring to the PACER scanned image of Docket Item 6.1, which has an additional Notice of Clerical Error page prepended. This means that the Honorable Magistrate's numbers referring to Plaintiff's First Amended Complaint in Docket Item 6-1 is inconsistent with the numbering on the face of the document, which is confusing. Plaintiff proposes to use the page numbers on the face of the Amended First Amended Complaint, for consistency with the pages on the Original First Amended Complaint, Docket Item 6. For specific page reference objections, see Objection 16 at the bottom of this document.

## **II. SUPPLEMENT TO PRIOR OBJECTIONS ON STATUTE OF LIMITATIONS TOLLING:**

### **Objection 2: Texas, Tolling; Objection 5: Michigan, Tolling; Supplemental:**

**Item 1:** Plaintiff states in her First Amended Complaint (Doc. 6.1 page 23):

Within a week or so of Plaintiff's being released from the Dallas County Jail, a television news broadcast reported that a nineteen (19) year old schizophrenic was placed in solitary confinement at the Detroit, Michigan jail, was not given any food or water, and died on the fourth day.

This refers to the case of Timothy Joe Souders who died August 6, 2006 at the Southern Michigan Correctional Facility in Jackson, Michigan. His death was covered on the broadcast mentioned above, and the following month on CBS' 60 Minutes<sup>1</sup> on February, 2007, which helped lead to the closing of the facility on November 17, 2007.<sup>2</sup> Plaintiff became aware of this incident from news media following her release, at the same time that the Muskegon County, Michigan (3) authorities refused to provide or allow Plaintiff's family to provide the prescription water and prescription food required for the life survival of the Plaintiff if jailed. This highlighted the threat that incarceration in the Muskegon County Jail, which did not have a full time physician on staff,<sup>3</sup> was to Plaintiff's life.

These set of circumstances would lead a reasonable person to conclude that there was a high probability that Plaintiff could lose her life if she surrendered to the Michigan authorities. Therefore, Plaintiff chose life and went into hiding, and was thus prevented from a legal remedy for violation of civil and Constitutional rights.

<sup>2</sup> [http://en.wikipedia.org/wiki/Michigan\\_State\\_Prison](http://en.wikipedia.org/wiki/Michigan_State_Prison)

<sup>3</sup> The fact that the Muskegon County Jail did not have a physician on staff in 2006 was covered in news articles on the outbreak of Methicillin Resistant Staphylococcus Aureus at that facility.

**Item 2:** Plaintiff supplements the medical necessity letter of her physician Dr. Alfred R. Johnson of Dallas, Texas which demonstrates Plaintiff's need for prescription organic food and prescription bottled water, Attachment 1 to her original Plaintiffs Objections, with Attachment 3, the Curriculum Vitae of Dr. Alfred R. Johnson of Dallas, Texas.<sup>4</sup>

**Objection 3: Texas, Tolling; Objection 5: Michigan, Tolling; Correction:**

The quote in Objection 3 Texas: Tolling (page 5), in Original Plaintiff's Objections is from Magistrate's Findings page 8, not page 6 as stated; Plaintiff also includes Objection 3 by reference in Objection 5, Michigan: Tolling.

**III. CORRECTION OF PRIOR "ADDITIONAL OBJECTIONS":**

**Objection 7: Warrant: Correction:**

The quote in Objection 7 (page 7) in Original Plaintiff's Objections which states "... active warrant... she did not return to that state." is Magistrate's Findings page 3; the page number was not previously listed.

**IV. "RELEVANT FACTS": DETAIL: OBJECTIONS:**

**Objection 12: "Plaintiff ... was ... initially denied...":** Magistrate's Report and

Recommendations states on page 2:

"Plaintiff alleges that while being held in the Dallas County Jail, she was ... and initially denied her prescription food and water."

Plaintiff objects to this mis-statement as it fails to accurately address the severity and length of time water and food was withheld from Plaintiff. Plaintiff was arrested on October 17, 2006. Officers adamantly refused to allow Plaintiff's prescription organic food or prescription bottled water to accompany Plaintiff. During the booking process, both of these were not noted /

<sup>4</sup> Notably, Dr. Johnson formerly served on the Texas State Board of Medical Examiners.

written down, the wheelchair was removed from the cell each time leaving Plaintiff immobile. Plaintiff was not given any water until October 19, 2006. For more than a week, before the hospital, during the hospital stay, and after returning to jail, Plaintiff was only offered jail food twice, not Plaintiff's prescription organic food.

Also, on Christmas Day, Plaintiff received only one five (5) ounce box of organic crackers that was to last the entire day. This establishes the withholding of food and water was not just initially denied. (Doc. 6.1, pages 7-21)

**Objection 13: "Plaintiff ... exposed to "noxious substance[s]...":** Magistrate's Report and Recommendations states on the bottom of page 2 and top of page 3:

"In addition, Plaintiff was subjected to many other actions, including: being exposed to "noxious substance[s]," which caused her to fall to the floor and lose the use of her legs the entire time she was in jail ..."

In fact, the woman sprayed some of the substance directly in Plaintiff's face. (Doc 6.1 pages 7-8)

Magistrate's Report and Recommendations states near the top of page 3:

"... being exposed to the substances a second time, which caused her to "black out" ..."

Plaintiff objects to this mis-statement. Plaintiff was wheeled past buckets containing chemicals used for cleaning which resulted in Plaintiff passing out. When Plaintiff returned to the jail, she was wheeled past the same type buckets containing chemicals used for cleaning, causing Plaintiff to black out again. (Doc 6.1 pages 9-11)

**V. PLAINTIFF'S REQUEST FOR INJUNCTIVE RELIEF  
HAS NOT BEEN ADDRESSED: OBJECTION:**

**Objection 14: Failure to address Plaintiff's request for Injunctive Relief:**

Honorable Magistrate's Finding, Conclusions, and Recommendations (Docket Item #87) are flawed regarding Plaintiff's pleas for injunctive relief. Specifically, Honorable Magistrate is

incorrect in stating on Page 4 in footnote 2:

**“However, Plaintiff’s amended complaint does not seek injunctive relief, only monetary damages, medical expenses, attorney’s fees, and a press release on her innocence. (Doc. 6-1 at 42-44).”**

In fact, the plea for injunctive relief in Plaintiff’s First Amended Complaint (Doc. 6.1) on page 41, item 86. The Court has neglected to address Plaintiff’s request for injunctive relief, the second half of Plaintiff’s case, and thus fails to mitigate the threat of future harm caused by the false accusations of the Michigan Defendants, the perjurious affidavits of James Schultz (5) and police reports of Fruitport Township, Michigan (4) which are false in key respects, which may continue to harm Plaintiff in the future.

Upon discovery, which may reveal specific means by which Plaintiff is threatened by future deprivation of rights under color of law, Plaintiff will provide specific language for an Order of injunctive relief.

## **VI. CONCLUSIONS AND CONCLUSORY LANGUAGE OBJECTIONS:**

**Objection 15: Objections to conclusions and conclusory language:** In addition to scope, fact, law, reference and grammatical objections, Plaintiff objects to the following conclusions and conclusory language for reasons enumerated above:

Page 1: After reviewing the relevant pleadings and applicable law, the Court finds Defendants’ motions to be well taken, and recommends that Plaintiff’s case be **DISMISSED WITH PREJUDICE** as to all Defendants.

Page 4: As set forth below, the Court concludes that Plaintiff’s claims are barred by the applicable statute of limitations as to all Defendants and, therefore, does not address Defendant’s remaining arguments.

Page 6: Therefore, any cause of action against the Texas Defendants that accrued before November 4, 2008, is barred by the statute of limitations.

Page 6-7: Accordingly, Plaintiff's section 1983 and 1985 claims against the Texas Defendants should be dismissed as barred because her complaint was filed approximately 22 months outside of the applicable limitations period.

Page 7: Therefore, any cause of action against the Michigan Defendants that accrued before November 4, 2007, is also barred by the Michigan statute of limitations.

Page 8-9: Plaintiff's complaint against the Michigan Defendants was filed approximately ten months outside the Michigan statute of limitations and 22 months outside of the Texas limitations period. Therefore, Plaintiff's section 1983 and 1985 claims against the Michigan Defendants are barred and should be dismissed.

Page 8: Thus, on January 2, 2007, Plaintiff had knowledge of all facts that would lead a reasonable person to conclude that there was a causal connection between her alleged injury and the Michigan Defendants' actions or to at least investigate further.

Page 9: For the foregoing reasons, it is recommended that Defendants' motions to dismiss (Docs. 10-12, 26, 43, 54) be GRANTED, and Plaintiff's case be dismissed with prejudice.

## **VII. SPECIFIC REFERENCE OBJECTIONS:**

### **Objection 16: References to Plaintiff's First Amended Complaint as Corrected:**

As stated above in Objection 11:

Objection 11: Most of the references in the Findings, Conclusions and Recommendation of Honorable Magistrate Judge to Plaintiff's First Amended Complaint are increased one page over the page numbering of the document, since Honorable Magistrate is apparently referring to the PACER scanned image of Docket Item 6.1, which has an additional Notice of Clerical Error page prepended. This means that the Honorable Magistrate's numbers referring to Plaintiff's First Amended Complaint in Docket Item 6-1 is inconsistent with the numbering on the face of the document, which is confusing. Plaintiff proposes to use the page numbers on the face of the Amended First Amended Complaint, for consistency with the pages on the Original First Amended Complaint. For specific page reference objections, see Objection 16 at the bottom of this document.

Plaintiff proposes, addition to the adjustment of Honorable Magistrate's references to use the page numbers on the face of the document, the following specific reference changes (which clearly specify document page numbers):

Page 1: no changes.

Page 2: Five (5) references to be adjusted to page numbers and:

Page 2 line 1: Should be Doc. 6-1 pages 2, 30-41. (adjusted, changed)

Page 2 line 6: Should be Doc 6.1 page 29 item 35. (adjusted, clarified)

Page 2 line 9: Should be Doc 6.1 page 5 item 2 and page 7 item 6. (adjusted, clarified)

Page 2 line 11: Should be Doc 6.1 page 5 item 2. (adjusted, clarified)

Page 2 line 17: Should be Doc 6.1 page 5, 21-22. (adjusted, error corrected)

Page 3: Nine (9) references to be adjusted to page numbers and:

Page 3 line 3: Should be Doc. 6-1 pages 9-11. (adjusted, changed)

Page 3 line 4: Should be Doc. 6-1 pages 8-9, 13. (adjusted, changed)

Page 3 line 5: Should be Doc. 6-1 pages 13, 16. (adjusted, changed)

Page 3 line 11: Should be Doc. 6-1 pages 22. (adjusted, changed)

Page 4-5: no changes.

Page 6: no changes (line 12 has the correct page numbers)

Page 7: One (1) reference on lines 9-10 to be adjusted to page numbers and:

Page 7 line 14: Should be Doc. 6-1 pages 5-6. (adjusted, changed)

Page 8-9: no changes.

**PLEA:**

THEREFORE, IT IS Prayed that the Magistrate's Recommendation be rejected and that this case not be dismissed with prejudice, but rather the case be allowed to proceed with discovery.
